856 235-2664

Tuition: \$200

# Virtual, Advanced Summer Institute on Race

Race has been called “the great American obsession” and has shaped the lives of people in our society for hundreds of years. Even today race strongly influences life expectancy, quality of healthcare, income, wealth, job opportunities, incarceration rates, quality of education, and much more. Race also changes how we interact with one another, and the things we say—and don’t say—about this taboo topic. The Advanced Summer Institute on Race offers insights on how race shapes our lives.

You are invited to a virtual educational setting (we will use the Zoom platform) in which participants explore race and build a sense of community. The Institute will be interactive and highly participatory. Participants will have the opportunity to discuss the racial events that arose recently and the failure of society to address long-standing structural racism.

The Virtual, Advanced Summer Institute on Race will help you:

- Learn how to build trust across racial and ethnic differences.
- Understand how race has shaped your world view and interactions with others.
- Shape strategies for a more resilient, affirming response to race matters.
- Develop principles that inform your anti-racism efforts.

People find the Institutes on Race not only informative but often life-changing. Insights from the Institutes open individuals to new ways of seeing the world and building genuine relationships across racial and ethnic divides. Join us for this unique learning opportunity.

This Institute is for people who have previously attended any of our Institutes on Race or who otherwise have an advanced knowledge about the dynamics of race and racism in the United States.
