# Summer Institute on Race

Race has been called “the great American obsession” and has shaped the lives of people in our society for hundreds of years. Still today, race strongly influences life expectancy, quality of healthcare, income, wealth, job opportunities, incarceration rates, quality of education, and much more. Race also changes how we interact with one another and what we say—and don’t say—about this taboo topic. The Beyond Diversity Summer Institute offers ways to positively change racial dynamics in the places where we live and work.

You are invited to an educational setting in which participants from diverse backgrounds explore race and build community across racial differences. The Institute will be interactive and highly participatory.

In the Beyond Diversity Summer Institute you will:

- Learn the profound impact of early messages about race.
- Understand how racial privilege affects individual and group interactions.
- Discover why power relationships change cross-race relationships.
- Explore how the history of race shapes current attitudes and behaviors.
- Discern the effects of internalized racial superiority and oppression.
- Develop action plans and strategies to address race and racism.

People find the Beyond Diversity Summer Institute not only informative but often life-changing. Insights from the Institute open individuals to new ways of seeing the world and building deep and lasting relationships. Join us for this unique learning opportunity.
